

IMPORTANT: It is the responsibility of the customer to send the COMPLETED application along with a copy of the dated sales receipt/invoice to the address listed on the bottom of this application. Equipment must be purchased and installed at a qualifying commercial, industrial, or agricultural facility within the state of Utah prior to submitting an incentive application. Please use a separate application for units installed at different locations. Please allow 6 weeks for incentive processing. All eligibility requirements stated on the back of this form must be met. **Incentives will not be paid for ineligible or incomplete applications.**

* Incentive levels will be paid as stated on the back of this form. Attach additional sheets if more than two units are being submitted.

** Incentives for programmable thermostats are only available on new installations.

CUSTOMER ACCEPTANCE OF TERMS

I hereby certify that all information is accurate including claims of customer and equipment information. **I have read all terms on this form (front and back)** and acknowledge that Utah Power may verify all the information provided.

X _____ Date _____

Incomplete applications will **NOT** be accepted. Did you:

Complete all required customer and equipment information?

Include your Utah Power electric account or kWh meter number?

Include the ARI reference # (except evap and T-Stat)?

Include a copy of the dated sales receipt/invoice?

Sign and date the application?

SEND COMPLETED APPLICATIONS WITH ATTACHMENTS TO:

FinAnswer Express; HVAC Application Processing Center; 3359 S. Main St., #507; Salt Lake City, UT 84115

FINANSWER EXPRESS HVAC EQUIPMENT ELIGIBILITY REQUIREMENTS

Qualifying Customers. Eligible customers include **commercial, industrial, and irrigation** electric customers whose facilities are within the **State of Utah** and who purchase their electricity from **Utah Power** on one of the following retail rate **schedules: 6, 6A, 6B, 9, 9A, 10, 12, 21, 23, or 23B.**

Qualifying Equipment and Incentive Levels. Equipment must meet or exceed the minimum efficiency requirements shown in the table below. Efficiency ratings will be determined by the applicable ARI Standard and reported in the ARI Directory of Certified Equipment (except evaporative equipment and programmable thermostats). This directory is available at www.ariprimer.net.org.

Equipment Type ¹	Size Category	Sub-Category	Min. Efficiency Requirement(s)	Standard	Customer Incentive
Unitary Commercial Air Conditioners, Air Cooled (Cooling Mode)	< 65,000 Btu/hr	Split System and Single Package	13.0 SEER	ARI 210/240	\$50/ton
	≥ 65,000 Btu/hr < 135,000 Btu/hr	Split System and Single Package	11.0 EER 11.4 IPLV		\$50/ton
	≥ 135,000 Btu/hr < 240,000 Btu/hr	Split System and Single Package	10.8 EER 11.2 IPLV	ARI 340/360	\$50/ton
	≥ 240,000 Btu/hr	Split System and Single Package	10.0 EER 10.4 IPLV		\$50/ton
Unitary Commercial Air Conditioners, Water and Evaporatively Cooled	All	Split System and Single Package	14.0 EER	ARI 210/240 ARI 340/360	\$50/ton
Packaged Terminal Air Conditioners (PTAC) (Heating & Cooling Mode)	< 8,000 Btu/hr	Single Package	11.8 EER 3.3 COP Heating	ARI 310/380	\$50/ton
	≥ 8,000 Btu/hr < 10,500 Btu/hr	Single Package	11.4 EER 3.2 COP Heating		\$50/ton
	≥ 10,500 Btu/hr < 13,500 Btu/hr	Single Package	10.7 EER 3.1 COP Heating		\$50/ton
	≥ 13,500 Btu/hr	Single Package	10.0 EER 3.0 COP Heating		\$50/ton
Heat Pumps, Air Cooled ² (Cooling Mode)	< 65,000 Btu/hr	Split System and Single Package	13.0 SEER	ARI 210/240	\$50/ton
	≥ 65,000 Btu/hr < 135,000 Btu/hr	Split System and Single Package	11.0 EER 11.4 IPLV		\$50/ton
	≥ 135,000 Btu/hr < 240,000 Btu/hr	Split System and Single Package	10.8 EER 11.2 IPLV	ARI 340/360	\$50/ton
	≥ 240,000 Btu/hr	Split System and Single Package	10.0 EER 10.4 IPLV		\$50/ton
Heat Pumps, Air Cooled ² (Heating Mode)	< 65,000 Btu/hr	Split System Single Package	8.0 HSPF 7.5 HSPF	ARI 210/240	See Note 2
	≥ 65,000 Btu/hr < 135,000 Btu/hr	47°F db / 43°F wb Outdoor air 17°F db / 15°F wb Outdoor Air	3.4 COP 2.4 COP		See Note 2
	≥ 135,000 Btu/hr	47°F db / 43°F wb Outdoor Air 17°F db / 15°F wb Outdoor Air	3.3 COP 2.2 COP	ARI 340/360	See Note 2
Heat Pumps, Water Source ² (Cooling Mode)	< 135,000 Btu/hr	85°F Entering water	14.0 EER	ARI 320	\$50/ton
Heat Pumps, Water Source ² (Heating Mode)	< 135,000 Btu/hr	70°F Entering water	4.6 COP	ARI 320	See Note 2
Programmable Thermostats	Non-programmable thermostat for AC	Programmable thermostat for AC			\$50/thermostat
	Non-programmable thermostat for HP	Optimizer programmable thermostat for HP or all electric			\$70/thermostat
Evaporative Cooling	< 25,000 CFM	Direct or Indirect	N/A	ISR rating at 0" SP	\$0.02/ISR CFM

¹ Removed units may not be installed elsewhere at customer facilities.

² Heat Pumps must meet both the cooling mode and heating mode efficiency requirements to qualify for the \$50/ton cooling capacity incentive.

SEER = Seasonal Energy Efficiency Ratio

EER = Energy Efficiency Ratio

COP = Coefficient of Performance

ISR = Industry Standard Rating

HSPF = Heating Seasonal Performance Factor

IPLV = Integrated Part Load Value

Eligible Dates. This 2005 HVAC Equipment Customer Incentive Application covers qualifying equipment purchased on or after January 1, 2005 and before December 31, 2005. Incentive applications for 2005 installations must be postmarked by January 31, 2006. Application received after this date may not be processed. Equipment must be purchased and installed prior to submitting an incentive application. For 2006 installations, visit the program Web site.

Additional Details. Eligible equipment can be installed in either new or retrofit applications. Incentive qualifications and amounts are subject to change and termination at any time. Customers should visit the program's Web site or contact your local dealer for current program information. A list of participating dealers is available on the program's Web site. Utah Power reserves the right to conduct random inspections to verify information provided on the application. If Utah Power inspects the unit, the incentive application will not be processed until it has passed inspection. After incentive payment, Utah Power reserves the right to inspect and/or install temporary air conditioning monitoring equipment on any installation of qualifying equipment at any time up to 24 months after installation for quality control of the application or program performance evaluations.

Customer agrees to transfer to Utah Power all "Environmental Attributes" attributable to the qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities, through reduced generation of energy or other savings or offsets on account of the qualifying equipment or otherwise. Customer will not claim ownership of any Environmental Attributes. As long as Customer at the same time states the qualifying equipment was made possible with funding from Utah Power, Customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Utah Power issues FinAnswer Express incentives in the form of checks, not utility bill credits. Utah Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Utah Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Qualifying equipment receiving incentives under the FinAnswer Express program may not receive incentives or credits under other Utah Power programs. Please allow six weeks for your incentive check to arrive.

For More Information. For more information about the FinAnswer Express program, eligibility requirements, incentive levels or other general inquiries, contact your local HVAC dealer. You can also visit the program's Web site at www.utahpower.net - click on the **Business** tab, then follow the **Save Energy & Money** link. Email inquiries can be submitted to HVACInfoUP@pacifiCorp.com, or you can call our **Energy Services Hotline** at **1-800-222-4335**.
