

Table 7A-12. Track survey and bait station results.

Survey Type	Project Facility	Date	Tracking Substrate	Total Distance Surveyed (km)	Species	Track Density (low =1 trail; medium= 2-5 trails; high= >5 trails)				
Track Survey	J.C. Boyle canal	01/15/2003	60% snow; 20% mud; 20% gravel	9.9	Bobcat	Low				
					Deer	High				
					Domestic dog	High				
					Jackrabbit	Medium				
	Keno dam	01/15/2003	15% snow; 55% mud; 30% gravel	7.8	Deer	High				
					Domestic cat	Medium				
					Domestic dog	High				
					Jackrabbit	Medium				
					Mink	Low				
					Raccoon	Medium				
		02/05/2003	60% frozen mud; 30% gravel; 10% mud	7.8	Deer	High				
					Domestic dog	High				
					Muskrat	Visual detection				
					Quail	Visual detection				
					Link River	01/16/2003	75% mud; 25% gravel	7.7	Bobcat	Low
									Deer	High
	Domestic cat	Medium								
	Domestic dog	High								
	02/04/2003	40% frozen mud; 35% mud; 25% gravel	7.7	Ground squirrel	Low					
				Jackrabbit	High					
				Deer	High					
				Domestic cat	Low					
				Domestic dog	High					
				Horse	Low					
Jackrabbit				High						
Quail				Medium						
Fall Creek	02/03/2003	30% mud; 50% gravel; 20% organic	5.8	Bobcat	Low					
				Deer	High					
	01/13/2003	60% gravel; 10% mud; 30% organic	4.6	Domestic cow	High					
				Deer	High					
Bait Station	J.C. Boyle canal	02/22/2003	N/A	N/A	Bobcat	N/A				
	Copco	01/24/2003	N/A	N/A	Bobcat	N/A				
		01/25/2003	N/A	N/A	Bobcat*	N/A
