

Hello,

Thank you for your interest in visiting the PacifiCorp solar sites that were included in the 2015 Utah Solar RFP. PacifiCorp will meet potential bidders at the Cleveland site at 9:30 am MDT on Wednesday, June 10th, 2015. A map and google directions from PacifiCorp’s North Temple in Salt Lake City to the Cleveland site are attached to this email. Aerial images of the three sites with conceptual layouts (that were included in the RFP) and an overview map showing the location of the three sites are also attached to this email.

PPE – The sites could be muddy, so PacifiCorp recommends wearing boots or steel toed shoes at the sites. Wearing a reflective safety vest is also recommended and PacifiCorp will have extra vests if needed.

The Cleveland site is located on Utah Highway 155 (UT-155) approximately halfway between the city of Huntington and the town of Cleveland. UT-155 intersects with Utah Highway 10 (UT-10) at UT-155’s northern end and southern end. The most direct route to the site is to take the southern intersection of UT-10 and UT-155 and head east for 2.1 miles along UT-155. The property is on the north side of the road and there is an existing ranch access to the site. Please drive onto the property to park when you arrive. PacifiCorp will be driving a white Ford SUV that should be easy to see from the road.

Google maps cannot accurately find any of the three sites using their street addresses. However, if you have a GPS system that is better than Google, the street addresses for the sites are:

- Cleveland – 2806 UT-155, Huntington, UT 84528
- Ferron South - 1550 S 800 W, Ferron, UT 84523
- Nebo View - 1187 W Cow Lane, Mona, UT 84645

If you have any trouble finding the sites on Wednesday, please contact Ian Andrew’s on his mobile phone at 801-652-0840.

The full schedule for the day is:

Activity	From	To	Total Time	Miles
Drive from SLC to Cleveland (includes 10 min rest stop)	7:00	9:30	2 hrs 30 min	140
Cleveland Site Visit	9:30	10:15	45 min
