Subject: Huntington CCR Landfill Semiannual Assessment Monitoring First Half 2022
Appendix IV Ground Water Protection Standard Notification

Dear Mr. Hansen,

In accordance with 40 CFR 257.95(g) the results of ground water assessment monitoring indicate that a notification is required for the coal combustion residual unit CCR Landfill at the Huntington Power Plant in Huntington, Utah. PacifiCorp has completed the 2022 First half assessment monitoring and the subsequent statistical analysis resulting in the following results.

Sampling Event	Appendix IV Constituents Exceeding Groundwater Protection Standards
2018 Assessment Monitoring	Chromium, Cobalt, Lithium, Molybdenum, and Selenium
First Half 2019 Assessment Monitoring	Cobalt, Lithium, and Selenium
Second Half 2019 Assessment Monitoring	Fluoride, Lithium, and Selenium
First Half 2020 Assessment Monitoring	Lithium and Selenium
Second Half 2020 Assessment Monitoring	Arsenic and Selenium
First Half 2021 Assessment Monitoring	Arsenic, Lithium, and Selenium
Second Half 2021 Assessment Monitoring	Arsenic, Lithium, and Selenium
First Half 2022 Assessment Monitoring	Arsenic, Lithium, and Selenium

If you have any questions regarding the notification please contact Terry Guthrie, Environmental Manager, Hunter and Huntington Power Plants, 435-687-4334.

Sincerely,

Laren Huntsman
Managing Director, Hunter and Huntington Power Plants
