Subject: Huntington CCR Landfill First Half 2026 Assessment Monitoring Notification of Statistically Significant Levels for Appendix IV Constituents

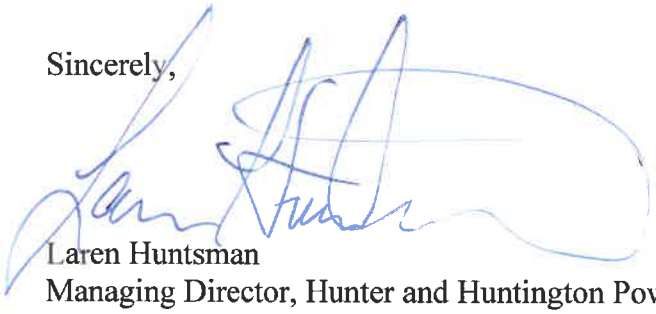
Dear Mr. Sonnenburg,

In accordance with 40 CFR § 257.95(g), PacifiCorp is providing notification regarding the results of groundwater assessment monitoring for the CCR Landfill at the Huntington Power Plant in Huntington, Utah. PacifiCorp completed the first half (spring) 2026 assessment monitoring event and the subsequent statistical evaluation of groundwater quality data. The statistical evaluation identified the following statistically significant levels (SSLs) for Appendix IV constituents, as determined using the statistical methods described in the Statistical Analysis Plan (Barr, 2025). The findings are summarized below:

- Arsenic
- Lithium

If you have any questions regarding the notification please contact Terry Guthrie, Environmental Manager, Hunter and Huntington Power Plants, 435-687-4334.

Sincerely,



Laren Huntsman
Managing Director, Hunter and Huntington Power Plants
