

**PLEASE NOTE:** The Black Canyon is a Class 5 Boating Opportunity

**– Experts Only –**

The Black Canyon is rated Class 5<sup>1</sup> whitewater, appropriate for expert boaters only. Class 5 whitewater is described as extremely long, obstructed, or very violent rapids, which expose a paddler to added risk. Drops may contain large, unavoidable waves and holes or steep, congested chutes with complex, demanding routes. Rapids may continue for long distances between pools, demanding a high level of fitness. What eddies exist may be small, turbulent, or difficult to reach. At the high end of the scale, several of these factors may be combined. Scouting is recommended but may be difficult. Swims are dangerous, and rescue is often difficult, even for experts. A very reliable Eskimo-roll, proper equipment, extensive experience, and practiced rescue skills are essential.

The Class 5 rating is intended to serve as guidance only. Whitewater boaters should assess their ability to run the Black Canyon based on their individual skill level, river flow level, and weather conditions.

Flows below the dam may change substantially without warning. PacifiCorp assumes no responsibility for damage to equipment or personal injury resulting from any change in flow.

***Disclaimer: PacifiCorp is by no means promoting or inviting the public to participate in whitewater boating activities on the Black Canyon of the Bear River.***

### **Black Canyon Boater Program**

The structure of PacifiCorp's whitewater boater flow program has been modified by agreement between the Parties to the Bear River Hydroelectric Project Settlement Agreement, also known as the Bear River Environmental Coordination Committee (ECC). In 2012, the ECC agreed to change from the previous forecast-dependent flow program to the scheduled program described in this document. The current season and days of boater flows are described in the following sections.

### **2020 Whitewater Boater Flow Season**

March 21 through May 10, 2020.

*Boater flows in April and May 2020 were cancelled due to Idaho's COVID-19 stay-at-home-order. Make-up flows will be provided in August and September 2020, outside the normal whitewater boater flow season, per agreement by the ECC.*

## **2020 Scheduled Whitewater Release Dates and Times**

Four boater events were scheduled during 2020 and included three two-day events (Saturday and Sunday) and one three-day event (Friday, Saturday and Sunday). Boater flows were scheduled for the following dates:

- March 21 and 22, 2020
- April 4 and 5, 2020
- April 24, 25 and 26, 2020
- May 9 and 10, 2020

*Because whitewater boater flows during April and May 2020 were cancelled due to Idaho's COVID-19 stay-at-home order, make-up flows will be provided on the following dates (Saturday and Sunday):*

- *August 29 and 30, 2020*
- *September 12 and 13, 2020*

On scheduled days, flows of 900 cfs or inflow, whichever is greater, will be provided on each day.

**Releases will begin at 10 a.m. and end at 4 p.m.**

Between adjoining release days, night-time flows of 200 cfs will be maintained.
