

Electronically filed June 3, 2022

Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C. 20426

**Subject: Cutler Hydroelectric Project (FERC Project No. 2420-059)
Response to FERC Additional Information Request on Final
License Application**

Dear Secretary Bose:

PacifiCorp is the owner, operator, and licensee of the Cutler Hydroelectric Project (Project) Federal Energy Regulatory Commission (FERC) Project No. 2420. On March 28, 2022, PacifiCorp submitted their Final License Application (FLA) pursuant to Title 18 Code of Federal Regulations (CFR) Section (§) 5.17(a). The current license expires March 31, 2024.

On April 22, 2022, after initial review of the FLA, FERC identified a need for additional information regarding a Candidate species for listing under the Endangered Species Act, the monarch butterfly (*Danaus plexippus*). Although there is no requirement for analysis of a Candidate species, FERC is requesting the additional information because it is possible that the monarch butterfly may become a federally protected species during the term of any license FERC may issue for the Project. Therefore, an environmental analysis of the monarch butterfly has been attached as Exhibit E supplemental text (Attachment A). PacifiCorp is not resubmitting the entirety of Exhibit E, but rather supplementing the information provided in the FLA filed on March 28, 2022.

This AIR is submitted in accordance with the Integrated Licensing Process pursuant to 18 CFR § 5.21. This letter and its enclosures have been filed electronically. The security classification of each component in this packet is shown in the enclosure table below. Additionally, this filing will be available on PacifiCorp's Cutler Relicensing website: <https://www.pacificorp.com/energy/hydro/cutler.html>. If you have any questions concerning these documents, please contact Eve Davies, Cutler Relicensing Project Manager, at 801-220-2245.

Sincerely,

Mark Sturtevant

Mark A. Sturtevant
Vice President, Renewable Resources
