Washington, D.C. 20426

**Subject: Cutler Hydroelectric Project (FERC Project No. 2420-059)
Water Quality Certification Application Under Section 401 of the Clean Water Act**

Dear Secretary Bose:

PacifiCorp is the owner, operator, and licensee of the Cutler Hydroelectric Project (Project), Federal Energy Regulatory Commission (FERC) Project No. 2420. The Project is located on the Bear River, near Logan, Utah, in Box Elder and Cache counties. On March 28, 2022, PacifiCorp filed a Final License Application pursuant to Title 18 Code of Federal Regulations (CFR) Section (§) 5.17(a). The current license expires March 31, 2024.

Pursuant to 18 CFR § 5.22(a)(2), on July 6, 2022, FERC issued a Ready for Environmental Analysis (REA), which included the requirement for the licensee to file one of the following within 60 days:

- A copy of the Water Quality Certificate (WQC);
- A copy of the request for certification, including proof of the date on which the certifying agency received the request; or
- Evidence of waiver of water quality certification.

Pursuant to Section 401 of the Clean Water Act, on June 27, 2022, PacifiCorp held the mandatory pre-filing meeting with the certifying agency, the Utah Division of Water Quality (UDWQ). On July 27, 2022, PacifiCorp submitted the Project's WQC application to the UDWQ. A copy of the WQC application is included as Attachment A.

This letter and its enclosure have been filed electronically. The security classification of each component in this packet is shown in the enclosure table below. Additionally, this filing will be available on PacifiCorp's Cutler Relicensing website: <https://www.pacificorp.com/energy/hydro/cutler.html>. If you have any questions regarding the WQC application for the Cutler Hydroelectric Project, please contact Eve Davies, the Cutler Relicensing Project Manager at (801) 220-2245 or eve.davies@pacificorp.com.

Sincerely,

Mark Sturtevant

Cc: [Andrea Kilbane](#); [Nuria Holmes](#); [Frank Shrier](#)
Subject: Re: Cutler 401 Water Quality Certificate Application
Date: Monday, August 1, 2022 9:01:15 AM

Eve,

The DWQ has received this request. Andrea Kilbane will be working on this, as she is the DWQ's 401 Certification Coordinator.

Best,

Leanna

On Wed, Jul 27, 2022 at 5:01 PM Davies, Eve (PacifiCorp) <Eve.Davies@pacificorp.com> wrote:

Hello Leanna-

PacifiCorp appreciates the recent opportunity to discuss various issues regarding the Cutler Hydroelectric Project (Federal Energy Regulatory Commission [FERC] Project No. 2420) relicensing and associated Cutler Water Quality Certificate (WQC) Application with Utah Division of Water Quality (UDWQ) staff. As we discussed, the Cutler relicensing project WQC application is ready for submittal to UDWQ, and the application and its attachments are enclosed.

As you know, on March 28, 2022, PacifiCorp filed a Final License Application pursuant to Title 18 Code of Federal Regulations (CFR) Section (§) 5.17(a). The current license expires March 31, 2024. Pursuant to 18 CFR § 5.22(a)(2), on July 6, 2022, FERC issued a Ready for Environmental Analysis (REA), which included the requirement for the licensee to file one of the following within 60 days:

- A copy of the Water Quality Certificate;
- A copy of the request for certification, including proof of the date on which the certifying agency received the request; or
- Evidence of waiver of water quality certification.

Pursuant to Section 401 of the Clean Water Act, on June 27, 2022, PacifiCorp held the mandatory pre-filing meeting with the certifying agency, UDWQ. That meeting discussed

potential timelines for submittal of the Cutler WQC Application, details of the FERC relicensing process, and several specific items related to details of the application itself. Please feel free to contact me with any questions you may have regarding the Cutler WQC Application and its attachments, or the FERC relicensing process. Please also let me know if you would prefer hard copies of the Supplemental Attachment narrative documents (links were provided due to the document sizes). Thank you in advance for your assistance with this process.

§401 Water Quality Certification Application

Section 1: Applicant Information		
Applicant Name: Todd Olson	Company: PacifiCorp	
Position: Director, Compliance	Email: todd.olson@pacificorp.com	
Mailing Address: 825 Multnomah, Suite 1800	Phone: 503-813-6657	
City: Portland	State: OR	Zipcode: 97232
Applicant Signature 	Date: 7-27-2022	

A corporate application must be signed by an officer of the corporation. Any signature required for this application for Certification shall be provided as described in 40 CFR Section 122.22(a);

Section 2: Additional Contact		
Contact Name: Eve Davies	Company: PacifiCorp	
Position: Licensing Project Manager	Email: eve.davies@pacificorp.com	
Mailing Address: 1407 West North Temple, Suite 210	Phone: 801-220-2245	
City: Salt Lake City	State: UT	Zipcode: 84116

Section 3: Project Location/ Information	
Project Name: Cutler Hydroelectric Project	County: Box Elder; Cache
Nearest City: Logan and Collinston	USGS Quadrangle: Cutler Dam, Newton, Wellesville
Street Address (if applicable): N/A	
Latitude (dd.ddddd): 41.836463	Longitude (-ddd.ddddd): -112.048239
Estimated State Date: March, 2024	Estimated End Date: March, 2064 or March, 2074

Section 4: Other Permits (Federal, State, or Local)
1. Does this project require a USACE 404 Permit? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No (if No, you do not need to answer 2).
2. Have you applied for a USACE 404 Permit? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No (If Yes, provide details below, Section 4B).
3. Have you applied for, received, or been denied a permit from the Utah Department of Natural Resources (DNR)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No (If Yes, Provide details below, Section 4B).
4. Have you applied for, received, or been denied and other Federal, State, or Local permits, variances, licenses or certifications for this project? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No (If Yes, Provide details below, Section 4B).

Section 4B: Other Permit Details (If Applicable)			
Agency	Permit Name	Permit No.	Status
FERC	Project License - Existing Dam	Project No. 2420	Pending
Utah Division of Water Quality	401 Water Quality Certification	N/A	Pending
See Supp. Info Attached

Section 6 Drawings/Plan Requirements	Attached	
	Yes	No
1. Map with plan/aerial/overhead view of the project site showing the existing conditions and proposed construction, discharge locations, associated waterbodies, including delineated wetlands. Must contain a north arrow, scale, & property boundaries. Please provide 8 ½ by 11 inch plan sheets.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Cross section views of areas of fill or alteration of streams and other water(s).	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Elevation plan of all existing and proposed structures.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Section 7: Other Required Attachments	Attached	
	Yes	No
1. Description of the overall project purpose, including construction and operation of facilities which may result in discharge. Characterize of the physical, chemical, biological, thermal, and other pertinent properties of the discharge.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Description of how the discharge(s) are compliant with water quality standards, including antidegradation requirements, beneficial uses, and narrative standards and numeric criteria.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Description of methods and means being used or proposed to monitor the quality and characteristics of the discharge(s) and the operation of the equipment or facilities employed in control of the proposed discharge. Provide a map showing the location(s) of the monitoring point(s).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Any supporting documentation submitted to federal agencies (e.g. maps, plans, copies of application, biological and engineering studies, reference information in FERC filings, Environmental Assessments or Impact Statements, Alternative Analysis, Proposed Mitigation, photos of features to be impacted)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. An exhibit that identifies and describes other requirements of State Law applicable to the activity that have any relationship to water quality, including requirements under WQA Section 19-5-114 (Spills or other discharges of oil or other substances), Section R317-2-12 (Category 1 & Category 2 waters), Section R317-2-3 (Antidegradation Policy), UPDES Stormwater GP for Construction Activities or UPDES GP for Construction Dewatering.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. List of names and addresses of landowners adjacent to the project site.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Additional information regarding unique features of the project.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**SUPPLEMENTAL INFORMATION
 WATER QUALITY CERTIFICATE**

SECTION-ITEM	APPLICATION REQUIREMENT	RESPONSE
SECTION 4: OTHER PERMITS (FEDERAL, STATE, OR LOCAL)		
4-4	Have you applied for, received, or been denied any other Federal, State, or Local permits, variances, licenses, or certifications for this project?	<p>The Cutler Final License Application [link] (FLA) was submitted to the Federal Energy Regulatory Commission (FERC) on March 29, 2022. The new license from FERC is expected no later than March 2024. On July 6, 2022, FERC issued the Notice of Ready for Environmental Analysis (REA), soliciting comments and preliminary terms and conditions from stakeholders.</p> <p>This application for a Section 401 Water Quality Certificate (WQC) is a required element of the relicensing process which was initiated in March 2019. FERC requires a final WQC prior to issuance of the new license. See also Section 6.2, below, regarding potential future permitting.</p>
SECTION 6: DRAWINGS/PLAN REQUIREMENTS		
6-1	Map and plan/aerial/overhead view of the project site showing the existing conditions and proposed construction, discharge locations, associated waterbodies, including delineated wetlands. Must contain a north arrow, scale, and property boundaries (8.5x11 inch plan sheets).	<p>An aerial map of the Cutler Project is included in a 36 x 48 inch zoomable, high quality PDF format of the proposed FERC Project Boundary including all adjacent landowner names and property boundary outlines.</p> <p>No construction associated with the on-going operation of the Project is proposed, however, there are future proposed Project improvements, one of which would require additional future permitting (Utah Stream Alteration Permit) as outlined in Exhibit C, Section 2.0 (<i>Table 2-1</i>; pg. 2-1 under ‘Bypass Channel...’).</p> <p>No discharges are identified as none are currently proposed. Similarly, as there would be no direct impacts to wetlands resulting from regulated activities, none are delineated from a regulatory perspective.</p> <p>Exhibit E of the FLA describes the large areas of emergent wetlands, wet meadows, and riparian shrublands that exist throughout the Project Area, specifically, Section 3.3.6.1 (<i>Affected Environment</i>, subheaders <i>Vegetation</i>;</p>

SECTION-ITEM	APPLICATION REQUIREMENT	RESPONSE
		[pg. 3-138], <i>Wetland, Shoreline, and Littoral Vegetation</i> [pg. 3-141]), and Section 3.3.7.1 (<i>Affected Environment</i> , subheaders <i>Wetland Habitat</i> [pg. 3-154], <i>Littoral and Open Water Habitat</i> [pg. 3-158]). For associated wetland figures in Exhibit E, see <i>Figures 3-24 and 3-25</i> .
6-2	Cross section views of areas of fill or alteration of streams and other water(s).	Not applicable. As noted, the Cutler relicensing proposal does not include any new construction elements; future Project improvements may require additional permitting (i.e., a stream alteration permit for future dam safety or other mitigation/ Project improvements such as bank stabilization efforts) which will be completed as part of implementation of any future proposed projects, as required.
6-3	Elevation plan of all existing and proposed structures.	See FLA Exhibit A, Sections 1.0 through 6.0 [pg. 1-1 through 6-2] for descriptions and photos all existing structures. There are no proposed structures as part of this relicensing project.
SECTION 7: OTHER REQUIRED ATTACHMENTS		
7-1	Description of the overall project purpose, including construction and operation of facilities which may result in discharge. Characterize the physical, chemical, biological, thermal, and other pertinent properties of the discharge.	Project purpose is described in Exhibit E, Sections 1.2 (<i>Purpose of Action</i>), 1.3 (<i>Need for Power</i>), and 1.4 (<i>Statutory and Regulatory Requirements</i>) ([pgs. 1-5 through 1-8]); operation of the Project is described in Exhibit B, Section 1.0 (<i>Project Operation</i> [pg. 1-1]); construction of the Project was described in Exhibit A (see also answer to 6.1, above) and Exhibit B, Section 4.0 <i>Plans for Future Development</i> [pg. 4-1]). Characterization of existing Project WQ can be found in Exhibit E, Section 3.3.4.1 <i>Water Resources Affected Environment</i> subheader <i>Water Quality</i> [pg. 3-81]; potential effects to water quality are described in Section 3.3.4.2 <i>Water Resources Environmental Analysis</i> subheader <i>Water Quality</i> [pg. 3-94].

SECTION-ITEM	APPLICATION REQUIREMENT	RESPONSE
7-2	Description of how the discharge(s) are compliant with water quality standards, including antidegradation requirements, beneficial uses, and narrative standards and numeric criteria.	The description of water quality standards, beneficial uses, and numeric criteria are also found in Exhibit E, Sections 3.3.4.1 <i>Water Resources Affected Environment</i> subheader <i>Water Quality</i> [pg. 3-81] and Section 3.3.4.2 <i>Water Resources Environmental Analysis</i> subheader <i>Water Quality</i> [pg. 3-94]; also specifically see <i>Table 3-8</i> [pg. 3-82] and <i>Table 3-9</i> [pg. 3-86], and subheader <i>Synthesis of Existing Water Quality Data</i> [pg. 3-84].
7-3	Description of methods and means being used or proposed to monitor the quality and characteristics of the discharge(s) and the operation of the equipment or facilities employed in control of the proposed discharge. Provide a map showing the location(s) of the monitoring point(s).	During the next license period, PacifiCorp proposes to continue monitoring the same sites and at the same frequency as the current license in order to capture consistent water quality metrics for comparative purposes; this existing/proposed monitoring is described in Section 3.3.4.1 <i>Water Resources Affected Environment</i> subheader <i>Water Quality</i> [pg. 3-81] and Section 3.3.4.3 <i>Water Resources Protection, Mitigation, and Enhancement (PM&E) Measures</i> subheader <i>Water Quality Monitoring</i> [pg. 3-103]. A map showing the monitoring point locations is shown in Exhibit E, <i>Figure 3-18</i> [pg. 3-87].
7-4	Any supporting documentation submitted to federal agencies (e.g., maps, plans, copies of application, biological and engineering studies, reference information in FERC filings, Environmental Assessments of Impact Statements, Alternative Analysis, Proposed Mitigation, photos of features to be impacted).	See FLA Exhibits: <ul style="list-style-type: none"> • A (Project Description) • B (Project Operation) • C (Construction History) • D (Statement of Costs and Financing) • E (Environmental Report) • F (Design Drawings) • G (Project Boundary Maps) • H (Project Management and Need for Power) and, Cutler Relicensing Project Initial Study Report and Updated Study Report .

SECTION-ITEM	APPLICATION REQUIREMENT	RESPONSE
7-5	An exhibit that identifies and describes other requirements of State Law applicable to the activity that have any relationship to water quality, including requirements under WQA Section 19-5-114 (Spills or other discharges of oil or other substances), Section R317-2-12 (Category 1 & Category 2 waters), Section R317-2-3 (Antidegradation Policy), UPDES Stormwater GP for Construction Activities or UPDES GP for Construction Dewatering.	Pending license issuance, proposed Project PM&E requirements include a Spill Prevention Control and Countermeasure (SPCC) Plan. Any future additional Project O&M work, or other components (e.g., a future bypass channel wing wall, etc.), will be assessed for additional permitting needs such as UPDES or similar, prior to any such component maintenance or construction work.
7-6	Lists of names and addresses of landowners adjacent to the project site.	The aerial map of the Cutler Project referenced above in this WQC application section 6-1 includes the proposed FERC Project Boundary including all adjacent landowner names and property boundary outlines; a list of the names and addresses only is included below in Table 1.
7-7	Additional information regarding unique features of the project.	See information referenced above in this WQC application section 7.4.
