

# PacifiCorp - Stakeholder Feedback Form

## 2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Flexible Reserve Study

Check here if any of the following information being submitted is copyrighted or confidential.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

In the group discussion from the June 29, 2018 IRP meeting participants expressed an interest in reviewing the scope of the resources that will be evaluated flexible reserve capacity study before the company finalizes the scope. Utah Clean Energy is formally requesting the opportunity to review the scope of resources that will be evaluated and is requesting the opportunity to respond with recommendations and supporting studies.

### PacifiCorp Response:

The resources considered include wind, solar, natural gas, and storage.

Secondly, given that Michael Milligan is no longer a principal analyst with NREL, who are you considering for his replacement on the technical review committee?

### PacifiCorp Response:

PacifiCorp presented details of this study, including its involvement in discussions with the technical review committee at the August 30-31, 2018 public input meeting.

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
