

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 7/20/2018

*Name: Justin Brant

Title: Senior Associate, Utility Program

*E-mail: jbrant@swenergy.org

Phone: 303-447-0078 x2

*Organization: SWEEP

Address: [Click here to enter text.](#)

City: [Click here to enter text.](#)

State: [Click here to enter text.](#)

Zip: [Click here to enter text.](#)

Public Meeting Date comments address: 6/29/2018

Check here if not related to specific meeting

List additional organization attendees at cited meeting:

Utah Clean Energy - Kevin Emerson and Sarah Wright

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Conservation Potential Study

Check here if any of the following information being submitted is copyrighted or confidential.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Thank you for providing the 2019 measure lists and market profiles. However, it is difficult for us to provide significant input on the measure list without some additional key assumptions. We request the residential and non-residential measure lists be updated to include levelized cost, incremental cost, energy savings per unit, and load shape for each measure (and each state if assumptions vary by state). In addition, we request that the sources of these assumptions also be included in the measure list. These additional data are consistent with what was provided in Appendix H of the PacifiCorp Demand-Side Resource Potential Assessment Assessment for 2017-2036.

PacifiCorp Response:

PacifiCorp provided requested material.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

[Click here to enter text.](#)

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.
