

# PacifiCorp - Stakeholder Feedback Form

## 2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Conservation Potential Study

Check here if any of the following information being submitted is copyrighted or confidential.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

During the Conservation Potential Study webinar held on July 23, 2018, PacifiCorp indicated the company would like comments on the CPA measure list and assumptions by July 27, 2018. However, on July 20, 2018 I submitted a Stakeholder Feedback Form requesting additional measure-level data. The company indicated on the webinar it would meet my request in the coming days. As I have not received these data as of July 27, I request that PacifiCorp extend the date it will accept comment on the CPA to give me at least three business days following receipt of the requested information to provide comment.

### **PacifiCorp Response:**

The date for comments was extended.

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.
