

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Intra-Hour Flexible Resource Credits

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Intra-Hour Flexible Resource Credits (IHFRC)

In order to help better understand the affects of the IHFRC in selecting resources, please consider completing a System Optimizer comparison between the Base Case and a second model run which incorporates the IHFRC to determine whether different generating resources are selected relative to the Base Case.

PacifiCorp Response:

PacifiCorp is not planning to model the Intra-Hour Flexible Resource Credit at this time, and will consider this request for a sensitivity.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
