

# PacifiCorp - Stakeholder Feedback Form

## 2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Coal studies and IRP analysis

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Please confirm that the passage of Wyoming Senate File 159 will not influence the coal studies or analysis in the 2019 IRP. If S.F. 159 is expected to influence the IRP analysis, schedule, or outcome, please address how.

### **PacifiCorp Response:**

The passage of Wyoming Senate File 159 does not directly affect PacifiCorp's coal study analysis. Should the 2019 Integrated Resource Plan identify Wyoming coal units for accelerated closure, the timing required to administer the process set forth in the Wyoming legislation will need to be a consideration in establishing the preferred portfolio and associated action plan.

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.
