

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 9/11/2018

*Name: Wendy Gerlitz

Title: **Policy Director**

*E-mail: wendy@nwenergy.org

Phone: 503-449-0009

*Organization: NW Energy Coalition

Address: 811 1st Ave. South

City: **Seattle**

State: **WA**

Zip: **98104**

Public Meeting Date comments address: **8/30/1931**

Check here if not related to specific meeting

List additional organization attendees at cited meeting:

Fred Heutte

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

IRP portfolio analysis

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

The explanation regarding how Pacific Power plans to fully comply with the Washington Utilities and Transmission Commission order in UE-160353 relating to the Pacific Power 2017 Integrated Resource Plan was not clear. Can you please explain, in detail, how Pacific Power plans to comply with the section of the order on page 11 that reads "In future IRPs, Pacific Power should incorporate the cost of risk of future greenhouse gas regulation in addition to known regulations in its preferred portfolio. This cost estimate should come from a comprehensive, peer reviewed estimate of the monetary cost of climate change damages, produced by a reputable organization. We suggest using the Interagency Working Group on Social Cost of Greenhouse Gases estimate with a three percent discount rate. Pacific Power should also continue to model other higher and lower costs estimates to understand how the resource portfolio changes based on these costs."

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

[Click here to enter text.](#)

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.
