

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 10/17/2018

*Name: Thomas Familia

Title: Sr. Renewable Analyst

*E-mail: thomasfamilia@state.or.us

Phone: 503-551-0531

*Organization: Oregon Public Utility Commission

Address: 201 High Street Suite 100

City: Salem

State: Oregon

Zip: 97301

Public Meeting Date comments address: 7/26/2018

Check here if not related to specific meeting

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Distribution System Planning

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Public Utility Commission of Oregon Staff (Staff) appreciates PacifiCorp's presentation and information relating to the Distribution System planning presentation provided at the 2019 IRP Public Meeting held on July 26, 2018. Staff offers the following comments requesting further clarity and additional information so as to more meaningfully participate in this process.

Please see PacifiCorp's IRP presentation from July 26, 2018, slides 38-47. The presentation discusses three different types of Distribution System Planning studies: the distribution system planning (DSP) study, Area Planning study, and Transmission studies.

The Company should explain whether the slides on pages 40-47 are primarily concerned with the five-year DSP study or whether they also involve the Area Planning study and Transmission studies and whether the study is only conducted every five years. If so, when were the last two studies conducted, and when will the next DSP study be conducted?

The Company should clarify whether there have been any material changes to the DSP studies over the past fifteen years. If material changes occurred, the Company should explain the material changes.

Staff is interested in knowing more about the Company's Area Planning study. Is it only conducted every 10 years? When were the last two Area Planning Studies conducted? When will the next Area Planning Study be conducted? Have there

* Required fields

been any material changes to the Area Planning studies over the last 20 years? If so, please explain the material changes.

The Company should clarify what it means when it discusses “Transmission studies.” Do these include studies done by outside parties such as NTTG, Columbia Grid, and BPA, or are they studies specific to PacifiCorp? The Company should provide a high-level and publicly available summary of key takeaways from its last two internal DSP studies. The Company should also provide a high-level and publicly available summary of its last two Area Planning Studies.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
