

# PacifiCorp - Stakeholder Feedback Form

## 2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 10/17/2018

\*Name: Thomas Familia

Title: Sr. Renewable Analyst

\*E-mail: thomasfamilia@state.or.us

Phone: 503-551-0531

\*Organization: Oregon Public Utility Commission

Address: 201 High Street Suite 100

City: Salem

State: Oregon

Zip: 97301

Public Meeting Date comments address: 9/27/2018

Check here if not related to specific meeting

List additional organization attendees at cited meeting:

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Navigant's Private Generation Study

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Public Utility Commission of Oregon Staff (Staff) appreciates PacifiCorp's presentation and information relating to customer-driven renewables provided at the 2019 IRP Public Meeting held on Sept. 27-28, 2018. Staff offers the following comments requesting further clarity and additional information so as to more meaningfully participate in this process.

Customer-driven renewables: PacifiCorp's customer-driven renewable resources assumptions (starting on slide 100) present the company's best estimates as to what policies will be made in the future. Oregon Staff believes this to be an appropriate planning decision, even when there is considerable uncertainty; even when the company doesn't know which particular cities and companies will opt for renewables, it's reasonable to believe that some will. PacifiCorp need to plan for a system that meets those demands.

Oregon Staff though contrasts that with Navigant's Private Generation Study presented at the August PIM. Here, the consultant assumed that all existing policies will sunset, and that no new private generation policies will be enacted. As noted in an earlier Public Input Form (August #2), Oregon Staff believes this to be inappropriate, especially given how important a driver to private generation Navigant believes policy to be. In light of PacifiCorp's decision to forecast policies about future customer choices, Oregon Staff believes that the company should use in its base-case Navigant's presented high-scenario of private generation.

\* Required fields

---

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
