

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 1/16/2019

*Name: Anthony Tomassi

Title: Mayor

*E-mail: cityhall@kemmerer.org

Phone: 307-828-2350

*Organization: City of Kemmerer

Address: 220 State Hwy 233

City: Kemmerer State: WY Zip: 83101

Public Meeting Date comments address: n/a Check here if not related to specific meeting

List additional organization attendees at cited meeting: n/a

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

- 1.) It appears that much of the timeline for shutdown of the ntoed coal-fired units is predicated on adoption of various types of renewable energy generation and storage technology by private generators, is this correct?
- 2.) If these shutdowns are tied to adoption of renewable generation/storage technologies by private generators, how much of this development does PacifiCorp foresee in Wyoming?
- 3.) What locations, aside from those already in progress/operating? (In terms of comparative power output, significant renewables development will need to occur to offset the cumulative production of coal-fired units proposed for decommissioning.)

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.
