

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

		Date of Submittal	
*Name:	JESSICA BRUSH	Title:	MS.
*E-mail:	Jbrush242@gmail.com	Phone:	307-705-5377
*Organization:	SOUTH LINCOLN MEDICAL CENTER		
Address:	711 ONYX ST.

(see reverse for comments)

B June 11

To the administration of Pacificorp:

My name is Scott Erickson and my wife and I have lived in Kennerly for thirteen years. We have enjoyed the quality of life raising our seven children while I have been employed by two not-for-profit agencies: nine years with High Country Behavioral Health, our local community based behavioral health center and now for four years with South Lincoln Hospital District. For the past 15 months I have also provided counseling services to our community in a small private practice.

Our family has a vested interest in your organization continuing its active investment in our community, particularly through continuing your current strategy of coal-fired energy.

Our local hospital absolutely depends on the investment of resources from ~~the~~ the tax levy (mill levy) for its basic operations. ~~Many~~ many of the patients we serve are employees of Pacificorp and without their patronage it is doubtful we could survive as an essential component of the community.

If South Lincoln Hospital District is forced to contract/eliminate services, it is possible if not likely that my employment will be at risk. If this occurs, being one of two counselors actively providing services in the area, the community would lose this important service. Without sounding too extreme, this would likely result in an increase of mental behavioral health needs with the trickle down effect of an increase in the number of deaths by suicide. I have personally intervened clinically with four individuals over the past year that likely would have died by suicide without my intervention.

Lastly, I am also an ecclesiastical leader of a church congregation of 300+ individuals, many of whom work for Pacificorp or have a family member who does so. In my heart, I do believe it would be best for these individuals and families to continue to contribute to and live in our community uninterrupted by the decisions of your organization to dramatically change your current strategies.

Sincerely - Scott M. Erickson
HPC-1010

phone number: 301-108-2967

If the powerplant were to close it would personally affect me as both myself and my husband's job depends on the size of the community. If it were to shut down people would lose their jobs and would move away causing a decline in population. If the population declined the hospital would no longer be able to see enough patients to keep us opened.

I would like to ask if you would please reconsider the closing of the powerplant in Kemmerer WY. ~~or~~ or at the very least extend the deadline for closing the plant.

Kemmerer is a very small town that relies heavily on the power plant to employ our citizens. The power plant also help our coal plant which also employee many of our towns people. If this power plant closes, I fear that Kemmerer will also close putting thousands of families without jobs and a place to live.

The Kemmerer Coal mine and Power Plant have supported Kemmerer for many years together ~~that~~ ^{they have} employed families for many generations. These families have raised their families in Kemmerer. I hope that this can continue for many more years and Kemmerer will continue to exist. This will not be possible if you choose to close the Power Plant here.

Simply put the plant is a backbone to this community. Without it, many people's' lively-hood would be affected. Leading, not ~~be~~ ^{be} ~~climatic~~, to the demise of this beloved town of ours.

Albeit, indirectly the proposed changes ~~at~~ would affect my family. My partner and I are currently employed at the hospital. The hospital ~~as~~ you are aware receives tax revenue, from you. The proposed closing would take away some of that revenue, putting my ~~tax~~ job and my partners at risk. I am sure I am not the only one who shares that sentiment. I can only imagine ~~to~~ how those ^{who} are directly employed, will be affected.

Help keep this town alive. It's the right thing to do.

I recently moved to Kemmer with my small family and hope to stay for years to come. The threat of the powerplant closure not only affects my career but the lives of my family and others in the community. The loss of jobs for neighbors and friends would be a crisis for our community. A community that is built on hard work, integrity and a family centered focus. This is a community I hope to raise my young family. Shutting the Power Plant down would ruin this dream for not only my family, but many others.

to whom it may concern.

I have lived in Kemmerer for the majority of my life. I was born and raised, and I have witnessed the 'Booms and the Busts'. During the slow times Kemmerer was always able to withstand the downturns because we had 2 steady industries that provided jobs as well as tax revenue. The jobs provided the income needed to generate revenue in the Community. The tax revenue provided the money to help operate my place of employment, South Lincoln Medical Center.

If this plant were to shut down it would not only have an impact on the plant employees, it would have an effect on the economy of our small community as well. Small businesses would suffer, the housing market would be overloaded and people would probably just walk away from their mortgage which isn't good for anyone. My employer would have to tighten their belts which would result in more people losing jobs.

The other thing that will happen is the closure of the mine because the power plant is their customer. This would result in more jobs lost. So in the end the result I see in the closure of Rocky Mountain Power

Naughton Plant is not a good one for our community. I see it destroying our little town. ~~and it will destroy our little town~~ I see it forcing people to leave their homes, leave their businesses and their life because they say it will save the customer money on their electricity. It may save a little on electricity bills, but it will be a huge cost to peoples lives when our community is gone. You can't put a price on that.

Sincerely

Sandy Sellers

Closing the Power Plant will affect the Community as a whole.

Loss of Jobs, Could ~~cause~~^{affect} the Coal Mine greatly

Which could result in more loss of Jobs. would ~~be~~^{result} in less tax dollars that helps keep the town running!

If people have to move to find work will cause less students for the schools, less patients for the hospital ~~community~~ etc etc. which could result in Kemmerer becoming a Ghost Town. I was born in Kemmerer

Raised in Kemmerer I can't imagine having to leave a wonderful Community!

Closing the power plant will also affect ~~other towns~~^{other towns} ~~near by~~
Near by. South Lincoln Medical Center is the ~~closest~~^{closest}
Hospital for many. ~~other people~~

To whom it may concern,

I would encourage you to not let the doors close @ PacificCorp. As a member of the South Lincoln Medical Center I would hate to see this happen. I fear that it will have a very large effect on the entire county. You all obviously supply a large amount of tax money to several facilities here locally. I do not foresee many of these facilities last to long without that money. Long story short, I feel that you closing the doors will directly result in Kemmerer becoming a ghost town. I wish you and all employees of PacificCorp the very Best!

Sincerely,

Tanner Haugh

TO WHOM IT MAY CONCERN,

I WOULD LIKE TO EXPRESS MY THOUGHTS AND CONCERNS REGARDING THE CLOSER OF OUR LOCAL NAUGHTON POWER PLANT.

I UNDERSTAND THAT YOU'LL FEEL THIS IS IN YOUR CUSTOMERS BEST INTEREST, BUT FOR THOSE IN THIS COMMUNITY AND THE SURROUNDING AREA. IT IS NOT. THIS WILL HAVE A DIRECT IMPACT ON HUNDREDS OF JOBS, ESPECIALLY IN OUR ENTIRE COUNTY. WE RELY A GREAT DEAL ON THE FINANCIAL STABILITY THIS PLANT PROVIDES FOR OUR HOSPITAL AND OUR COUNTY.

NOW I DO NOT KNOW ALL THE DETAILS ON WHY OR EVEN IF YOU WILL CHANGE YOUR COURSE ON THIS. I DO HOPE YOU UNDERSTAND THAT THIS CLOSER WILL EFFECT HUNDREDS, EVEN THOUSANDS OF LIVES.

THE WEIGHT OF THIS DECISION IS GREAT AND NOT AN EASY ONE TO MAKE, BUT I WOULD ASK THAT IT BE MADE WITH YOUR CUSTOMERS IN MIND. THIS IS NOT ONLY A ISSUE OF POWER BEING SUPPLIED BUT THE WELL BEING OF PEOPLE.

DO NOT FALL VICTIM TO THIS UNRELIABLE 'GREEN ENERGY'. IT WILL ONLY CAUSE GRIEF AFTER YOU REAP THE REWARDS.

THANK YOU FOR YOUR TIME,

- Eli Backman

While there is little dispute that technology has

been a major force in the development of the world's economy, there is still much debate about the extent to which it has caused the environmental damage that we see today.

Some

of the arguments

are that the damage is a direct result of the technology itself, while others believe that it is the way we use the technology that is the problem.

To Whom It May Concern,

The closure of the Naughton power plant will have a very large impact on the community of Kemmerer / Diamondville, WY, where I live and work. The energy industry, both the power plant and the coal mine, are the lifeblood of the community. People are dependent on the continuation of the operation of the power plant. Please consider strategies to keep it in operation.

Respectfully,

Matthew Thomson, PA-C

Closing the Power Plant would have a severe negative impact on the communities nearby. We would lose jobs in the community to both the closure of your plant, and the closure of the mine that supplies its coal. The community would be better served by finding a way to make cleaner burning coal instead of just giving up and shutting it down.

Jessie F. Z.

Having been born and raised in Kemmerer both my husband and I left for college then returned to start and raise a family. Kemmerer is a community formed and known for being in the center of an energy field. The Power Plant Closing would be absolutely devastating and catastrophic to our community and neighboring communities. Not only does it employ people from neighboring cities it's a huge impact in keeping our community just that a community! A closing would cause people to have to look for employment outside our city in which also splits up families. One of the biggest and most ~~substantial~~ reasons we stay resided in Kemmerer is because of our family. It's where all the generations before us raised us and where we want to continue to raise our family. It's where my kids can go to school in the same buildings as their grandparents & parents and carry on traditions and go to school with their cousins instead of strangers. This community deserves to be here and be given the opportunity to grow, and provide our people a place to raise their families in a safe secure community. Choosing to close Naughton Plant is not only destroying a community but also destroying families. I honestly can not imagine what this would be like for our town and businesses, all for the sake of what no one can really prove - meaning going green!

Respectfully
John
