

PacifiCorp - Stakeholder Feedback Form

2019 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2019 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Public Meeting Date comments address: 6/20/2019 Check here if not related to specific meeting

List additional organization attendees at cited meeting: All the organizations listed were represented by at least one representative

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Additional coal retirement portfolio, child of P-11 as depicted on page 8 of June PIM slide deck

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

We request that an additional portfolio be modeled as a variant of the P-11 portfolio. It would retire Naughton 1 & 2 and Jim Bridger 3 & 4 units in 2025.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

The requested case is similar to Stacked case C-42 from the April 25 (slide 8) PIM and June 20 (slide 8) PIM results. Case C-42 was one of the better performing Stacked cases. The case we have suggested is based on looking at all of the data produced thus far and hypothesizing it has the most potential for additional savings.

* Required fields

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.

The parties listed feel the described case is an obvious candidate for additional savings and the IRP would be lacking without the results of this case.

Please submit your completed Stakeholder Feedback Form via email to IRP@Pacifcorp.com

Thank you for participating.
