

PacifiCorp - Stakeholder Feedback Form

2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 5/4/2020

*Name: Nick Sayen

Title: Senior Utility Analyst

*E-mail: nick.sayen@state.or.us

Phone: 503-378-6355

*Organization: Oregon Public Utility Commission

Address: 201 High St. SE Suite 100

City: Salem

State: OR

Zip: 97301

Public Meeting Date comments address: [Click here to enter date.](#) Check here if not related to specific meeting

List additional organization attendees at cited meeting: [Click here to enter text.](#)

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Demand response

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

At the August 16, 2016 OPUC Public Meeting PacifiCorp presented on the potential for demand response pilots. This presentation was a condition of Order 16-071. The link to this presentation is provided below. Slide 13 of the presentation notes that, with respect to a peak-time rebate pilot/program, in looking for opportunities to leverage the deployment of AMI to implement low-cost Class 1 and 3 DSM programs with verifiable impacts, the Company would develop more detailed estimates of the IT-related cost to implement a peak-time rebate program.

1. Have more detailed estimates of the IT-related costs for implementing a PTR program been developed?

PacifiCorp Response:

No, more detailed estimates of these costs have not been developed.

2. Have they been updated recently?

PacifiCorp Response:

No, they have not been updated recently.

3. Have other costs for a PTR program been updated with AMI deployment complete?

PacifiCorp Response:

No, other costs for a peak-time rebate program have not been updated.

* Required fields

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
