

PacifiCorp - Stakeholder Feedback Form

2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal [Click here to enter date.](#)

*Name: Rose Anderson

Title: Economist

*E-mail: Rose.anderson@state.or.us

Phone: [Click here to enter text.](#)

*Organization: Oregon Public Utility Commission

Address: [Click here to enter text.](#)

City: [Click here to enter text.](#) State: [Click here to enter text.](#) Zip: [Click here to enter text.](#)

Public Meeting Date comments address: 6/18/2019 Check here if not related to specific meeting

List additional organization attendees at cited meeting: [Click here to enter text.](#)

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.
CPA, Battery Storage

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.
Please see attached document with feedback.

June meeting feedback form:

Topic: Demand Response in the CPA and IRP

1. Please provide all details and parameters of how Demand Response (DR) resources will be modeled in Plexos in the 2019 IRP, and include information that answers the following questions:
 - Which types of DR will be modeled in Plexos?
 - Will the DR levelized costs from the CPA be input into Plexos directly? If not, please explain how DR cost inputs to Plexos will be developed. If it is still unknown how they will be developed, please explain how the inputs to System Optimizer were developed in the 2019 IRP.
 - In what ways will the Plexos modeling of a DR resource be similar to, and how will it differ from, the modeling of a typical supply-side resource?
 - Please list and briefly describe the Plexos inputs and constraints that will be necessary for the modeling of DR resources.
 - Please explain how the Plexos model will be used to accurately consider the full capabilities of DR resources, including capacity and ancillary services.

* Required fields

2. See page 30 of the DSM I and III CPA chapter from the 2019 IRP. What does it mean for a DR pricing program to have a useful life of ten years? What is the reasoning for using a ten year lifespan?

Topic: Modeling Energy Storage:

3. Please provide an explanation of how the solar plus storage constraints in the chart on slide 39 of the June IRP presentation will be implemented in Plexos.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

June 18 OPUC Feedback.docx

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.
