

# PacifiCorp - Stakeholder Feedback Form

## 2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Business As Usual Case

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

---

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

The Wyoming Public Service Commission will provide a document that presents its idea of a business as usual case.

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

WPSC Proposed BAU Case: Carry forward Preferred Portfolio from the 2019 IRP and make updates as follows:

1. Make necessary updates due to regulatory changes that are now part of law or provisions that are going to be enacted at a future date. (45Q tax credit, ITC and PTCs, regional haze and mandatory scrubber installations, etc...)
2. No additional assumed early retirements, let all resources live out lives assumed in the previous IRP.
3. Exclude externalities that are not currently required by law to be evaluated; such as carbon pricing or social cost of carbon.

DSM

4. Update with the current IRP forecasted information.

Updated load forecast

5. If Needing Additional Capacity: Fill additional capacity needed with the least cost resource available, while making sure reliability requirements are still fulfilled.

\* Required fields

6. If Load Forecast is less than previous Load Forecast: Keep all resources the same and reduce reliance on FOTs. \
7. Final Two Years of current IRP Planning Period: Hold constant and carry forward the last year of resources assumed in the previous IRP into the final two years of the current IRP planning period.

#### Customer Preferences

8. Keep the same customer preferences as in the previous IRP cycle's preferred portfolio.

#### FOTs

9. Keep the same amount of FOTs assumed in the previous preferred portfolio and hold constant and carry forward the final year of the previous IRP FOTs into the current IRPs final two years of its planning period.

#### **PacifiCorp Response:**

PacifiCorp will consider these requests and discuss details of a business as usual case or cases at an upcoming public input meeting.

---

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.
