

PacifiCorp - Stakeholder Feedback Form

2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 10/24/2020

*Name: Shannon Anderson

Title: [Click here to enter text.](#)

*E-mail: sanderson@powderriverbasin.org

Phone: [Click here to enter text.](#)

*Organization: Powder River Basin Resource Council

Address: 934 N. Main St.

City: Sheridan

State: WY

Zip: 82801

Public Meeting Date comments address: 10/22/2020 Check here if not related to specific meeting

List additional organization attendees at cited meeting: [Click here to enter text.](#)

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Portfolio development

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

As a follow-up to the discussion on regional haze, the company should provide disclosure at the next IRP meeting how the second phase of regional haze planning will be modeled in the 2021 IRP. Specifically, since the company has represented the proposed early retirement dates of some coal units to WY DEQ as justification for not conducting a 4-factor analysis in the second planning period, will the company consider the early retirements as a compliance option for regional haze? How will the company's representations to WY DEQ be incorporated in the 2021 IRP analysis? What is the "benchmark" or "base" case for regional haze?

PacifiCorp Response:

Further discussion on regional haze and portfolio development will be provided at the November 16, 2020 Public Input Meeting.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

<http://deq.wyoming.gov/aqd/regional-haze/>

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated. The company should consider early retirement of certain coal units as a compliance requirement for regional haze as part of portfolio development.

* Required fields

Please submit your completed Stakeholder Feedback Form via email to IRP@PacifiCorp.com

Thank you for participating.
