

PacifiCorp - Stakeholder Feedback Form

2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 11/17/2020

*Name: Nancy Kelly

Title: [Click here to enter text.](#)

*E-mail: nancy.kelly@westernresources.org

Phone: (208) 234 - 0636

*Organization: Western Resource Advocates

Address: 307 West, 200 South, Suite 2000

City: Salt Lake City

State: UT

Zip: 84101

Public Meeting Date comments address: 11/16/2020

Check here if not related to specific meeting

List additional organization attendees at cited meeting:

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Effect of tranmission topology changes on modeled transmission capacity

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

When PacifiCorp's evaluation of transmission topology is complete, please provide the incremental transmission capacity (direction, size, and location) resulting from the 2021 IRP transmission topology as compared with the 2019 IRP transmission topology. This information should not be confidential since we are asking for the change in capacity only

PacifiCorp Response:

Thank you for this recommendation. PacifiCorp will provide the delta between the 2021 IRP transmission topology and the 2019 IRP transmission topology as available/able.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.
