

PacifiCorp - Stakeholder Feedback Form

2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 1/19/2021

Public Meeting Date comments address: 12/3/2020

Check here if not related to specific meeting

List additional organization attendees at cited meeting: _____

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Coal Plant Operating Variants and Operating Limits

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Commission Staff Feedback for PacifiCorp 2021 IRP: Public Interest Meeting #6 (Dec 3, 2020)

I am very concerned about ongoing investment into coal power plants outlined over the next ten years rather than focusing on retirement of coal power plants and investment in renewable energy sources. There is no longer any monetary excuse for doing otherwise.

PacifiCorp Response:

Thank you for this feedback. PacifiCorp's long-term planning process considers an extensive variety of potential new proxy resources including wind, solar, battery, and others as described in the supply-side resource table located on PacifiCorp's webpage at:

<https://www.pacificorp.com/content/dam/pcorp/documents/en/pacificorp/energy/integrated-resource-plan/2021-1-11%20Supply-Side%20Resource%20Table.pdf>

PacifiCorp's long-term plan is established on a least-cost, least-risk basis and models options including early retirement of coal power plants as described in the December 3-4, 2021 public-input meeting material located at: https://www.pacificorp.com/content/dam/pcorp/documents/en/pacificorp/energy/integrated-resource-plan/PacifiCorp%202021%20IRP_PIM_December%203,%202020.pdf

* Required fields

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

<https://pv-magazine-usa.com/2020/11/27/how-does-the-us-retire-236-gw-of-coal-and-1000-gas-peaker-plants-2/>

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.

As an end consumer of Pacific Power electricity, I want to be crystal clear that coal power plants must be retired.

Please submit your completed Stakeholder Feedback Form via email to IRP@PacifiCorp.com

Thank you for participating.
