

# PacifiCorp - Stakeholder Feedback Form

## 2021 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2021 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Customer rate impacts of studied and chosen 2021 IRP resource portfolios

Check here if any of the following information being submitted is copyrighted or confidential.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

The Utah OCS requests that PacifiCorp provide in its IRP filing customer rate impact analyses for the 2021 preferred portfolio (and other highly ranked portfolios). Rate impact analysis should be done in comparison to a base case, such as the 2019 preferred portfolio or an actual base year such as 2020 or 2021.

### PacifiCorp Response

PacifiCorp has included an incremental customer rate impact analysis as part of its 2021 IRP relative to the preferred portfolio, P02-MM-CETA. Please see Volume II, Appendix J - Stochastic Simulation Results Please also see discussion regarding customer rate pressure included in Volume I, Chapter 9, Modeling Selection and Portfolio Results.

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

In prior IRPs (e.g. 2011 and 2017), PacifiCorp has provided rate payer impacts. See Utah OCS comments on PacifiCorp's 2019 IRP (pages 3 to 5) which can be found at : <http://pscdocs.utah.gov/electric/19docs/1903502/311999OCSCmnts2-4-2020.pdf>

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.
