

PacifiCorp - Stakeholder Feedback Form

2023 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2023 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 2022-09-20

*Name: Andrew Rector Title: _____
*E-mail: andrew.rector@utc.wa.gov Phone: (360) 664 - 1315
*Organization: Washington Utilities & Transportation Commission
Address: 621 Woodland Square Loop SE
City: Olympia State: WA Zip: 98503
Public Meeting Date comments address: 09-01-2022 Check here if not related to specific meeting
List additional organization attendees at cited meeting: _____

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.
Social Cost of Greenhouse Gases

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

In the 2023 IRP progress report, whenever PacifiCorp includes a Washington-allocated resource into any portfolio with a price-policy scenario, the price of that Washington-allocated resource must include the social cost of greenhouse gases (SCGHG) as its base carbon cost assumption. This is required by RCW 19.280.030(3) and WAC 480-100-605.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.

PacifiCorp Response (10/10/2022):

The Company is not aware of any language in RCW 19.280.030(3) and WAC 480-100-605 that requires utilities to include the SCGHG as their base carbon cost price-policy assumption for Washington-allocated resources. The Company looks forward to continuing these discussions to develop a better understanding of this concern.

Please submit your completed Stakeholder Feedback Form via email to IRP@Pacifcorp.com
