

PacifiCorp - Stakeholder Feedback Form

2023 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2023 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 2022-08-24

*Name: Irion Sanger

Title: _____

*E-mail: irion@sanger-law.com

Phone: (503) 756 - 7533

*Organization: Renewable Energy Coalition

Address: _____

City: _____ State: _____ Zip: _____

Public Meeting Date comments address: _____ Check here if not related to specific meeting

List additional organization attendees at cited meeting: _____

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

Qualifying Facilities

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

The Oregon Public Utility Commission (\u001COPUC\u001D) has ordered PacifiCorp to forecast a qualifying facility (\u001CQF\u001D) contract renewal rate based in part on historical renewal rates. (See In re PacifiCorp 2021 IRP, Docket No. LC 77, Order No. 22-178 at 14 (May 23, 2022) (\u001CWe adopt Staff Recommendation 39. We direct PacifiCorp to forecast a likely QF contract renewal rate. Because PacifiCorp operates in a multi-state footprint, we understand this assessment to be more complicated than an Oregon-only renewal rate. However, PacifiCorp should use historical renewable [sic] rates as well as other relevant information in its possession and attempt to make its forecast as accurate as possible.\u001D)) Please provide a QF renewal and success rate if PacifiCorp has developed these rates. Please provide the rate for: 1) all QFs; 2) QFs at or below 10 MW; and 3) QFs over 10 MW. Please provide a complete list of QF contracts that have entered into Power Purchase Agreements (\u001CPPAs\u001D) with PacifiCorp since 1980, regardless of whether the qualifying facility is planned on in the 2023 IRP or not. Thus, please provide all qualifying facility contracts, past or present, even if the project is not included in the planning assumptions for the 2023 IRP. This information will need to be compiled to comply with the OPUC\u0019s Order in Oregon Docket LC 77 to confirm the accuracy of any renewal rates. Please include the following information for each qualifying facility, and please provide all work papers in original electronic format: a) project name, b) PPA execution date, c) resource type, d) nameplate capacity, e) actual commercial operation date, f) contracted commercial operation date, g) type of PPA (standard or non-standard), h) current PPA expiration date, i) whether the contract is for a new or existing project, and if renewing, then the dates for each contract, j) for QFs that began operating and whose contracts expired, whether the QF entered into a new contract with PacifiCorp, and, if not, why not (for example, expired, shutdown, not built/terminated, operating, renewal expected, etc.), and k) the state where the QF is

* Required fields

located. This information will need to be compiled to comply with the OPUC\u0019s Order in Oregon Docket LC 77 to confirm the accuracy of any renewal rates. Please let us know when PacifiCorp will be able to provide this information.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated. This feedback and questions can be posted to the IRP website.

PacifiCorp Response (10/19/22):

PacifiCorp appreciates your interest in its long-term planning objectives. Consistent with the information outlined in this inquiry, please refer to the [documentation posted on the PacifiCorp Public Input Meeting website](#) titled “QF Extension History”, which provides an inventory of PacifiCorp qualifying facilities with other pertinent information.

Please submit your completed Stakeholder Feedback Form via email to IRP@PacifiCorp.com

Thank you for participating.
