

# PacifiCorp - Stakeholder Feedback Form

## 2023 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2023 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

The Renewable Energy Coalition previously requested information regarding PacifiCorp's compliance with Oregon Public Utility Commission Order No. 22-178 and relevant data. PacifiCorp's answer was not responsive to the request made. The request is as follows: Please provide a QF renewal and success rate if PacifiCorp has developed these rates. Please provide the rate for: 1) all QFs; 2) QFs at or below 10 MW; and 3) QFs over 10 MW. Please provide a complete list of QF contracts that have entered into Power Purchase Agreements (\u001CPPAs\u001D) with PacifiCorp since 1980, regardless of whether the qualifying facility is planned on in the 2023 IRP or not. Thus, please provide all qualifying facility contracts, past or present, even if the project is not included in the planning assumptions for the 2023 IRP. This information will need to be compiled to comply with the OPUC\u0019s Order in Oregon Docket LC 77 to confirm the accuracy of any renewal rates. Please include the following information for each qualifying facility, and please provide all work papers in original electronic format: a) project name, b) PPA execution date, c) resource type, d) nameplate capacity, e) actual commercial operation date, f) contracted commercial operation date, g) type of PPA (standard or non-standard), h) current PPA expiration date, i) whether the contract is for a new or existing project, and if renewing, then the dates for each contract, j) for QFs that began operating and whose contracts expired, whether the QF entered into a new contract with PacifiCorp, and, if not, why not (for example, expired, shutdown, not built/terminated, operating, renewal expected, etc.), and k) the state where the QF is located. This information will need to be compiled to comply with the OPUC\u0019s Order in Oregon Docket LC 77 to confirm the accuracy of any renewal rates. Please let us know when PacifiCorp will be able to provide this information.

\* Required fields

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

---

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.

**PacifiCorp Response (1/3/2023):**

Thank you for submitting your detailed stakeholder inquiry. PacifiCorp appreciates your interest in its long-term planning objectives. As provided in a prior stakeholder response on October 19, 2022, please refer to the documentation posted on the PacifiCorp Public Input Meeting website titled “QF Extension History”, which provides an inventory of PacifiCorp qualifying facilities with other pertinent information. For supplemental data relating to qualifying facilities, please refer to Oregon dockets LC-77 (2021 IRP) and LC-70 (2019 IRP).
