

PacifiCorp - Stakeholder Feedback Form

2023 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2023 IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will generally post all appropriate feedback on the IRP website unless you request otherwise, below.

Date of Submittal 2024-04-23

*Name: Joan Entwistle

Title:

*E-mail: joan.entwistle@gmail.com

Phone: 9785494864

*Organization: self

Address: 8231 Meadowview Ct

City: Park City

State: UT

Zip: 84098

Public Meeting Date comments address: 05-02-2024

Check here if not related to specific meeting

List additional organization attendees at cited meeting:

***IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

2023 Updates

Check here if you do **not** want your Stakeholder feedback and accompanying materials posted to the IRP website.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Please address why RMP will regress to pre-2021 IRP levels of solar, wind, battery storage when these sources are now less expensive than other sources, and we will need to increasing the supply of electricity.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.

Please resume the 2022 all source RFP that was proposed in 2021.

Please submit your completed Stakeholder Feedback Form via email to IRP@PacifiCorp.com

Thank you for participating.

PacifiCorp Response (7/10/2024):

Thank you for your feedback and engagement in the Integrated Resource Planning process. For information regarding the drivers of change in amounts and timing of resources in recent IRP filings, please refer to the 2023 IRP and 2023 IRP Update, publicly accessible through this web link: [Integrated Resource Plan \(pacifiCorp.com\)](https://www.pacifiCorp.com/IntegratedResourcePlan)

* Required fields

PacifiCorp uses the Integrated Resource Planning process to select the least-cost, least-risk portfolio given prevailing conditions at the time of planning. The need to meet system demand in all hours means that the Company must consider factors beyond the cost of a resource, including whether the resource will reliably generate during peak load hours. Pages 6-7 of the 2023 IRP Update report that the preferred portfolio includes 3,749 megawatts of new solar online by 2037, 9,800 megawatts of new wind resources online by 2037, and more than 4,000 megawatts of new storage capacity online by 2037.

PacifiCorp anticipates the discussion of inputs and assumptions to continue throughout the 2025 IRP public input meeting series.
