

PacifiCorp - Stakeholder Feedback Form

Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference call, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the IRP, including, but not limited to the process, assumptions, and analysis. In order to maintain open communication and provide the broader Stakeholder community with useful information, the Company will post appropriate feedback on the IRP website based on your selection below.

***Respondent Comment:** Please provide your feedback for each IRP topic listed above.

Please identify all potential system-wide resource planning impacts if RMP separates from PacifiCorp, or if a Utah-Idaho-Wyoming consortium of state managers takes control, at near-, mid-, and long term stages of the 2025 IRP planning horizon. Utah state legislators recently expressed concern about the current PacifiCorp structure and requested a "restructuring" report from RMP...due in November 2024. Suggest Multi-State Protocol advisory group of UT/WY/ID/WA/OR/CA state representatives be resurrected and meet asap.

Data Support: If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

Recommendations: Provide any additional recommendations if not included above - specificity is greatly appreciated.

Please ensure that implications of recent Utah state legislative actions are raised in relevant sections of the September 25-26 PIM agenda and that RMP describes what it plans to address in its November 2024 restructuring report to the Utah Legislature.
