Gavin Newsom, Governor  
Caroline Thomas Jacobs, Director

**TRANSMITTED VIA ELECTRONIC MAIL**

## **DATA REQUEST**

**Request Date:** Tuesday, December 2, 2025

**Response Due:** Friday, December 5, 2025

**To:** Pooja Kishore, Regulatory Affairs Manager  
Pooja.Kishore@pacificorp.com  
PacifiCorp dba Pacific Power  
825 NE Multnomah Street, Suite 2000  
Portland, OR 97232

**Cc:** datareq@pacificorp.com  
Melissa Swenson, PacifiCorp  
Lakshmi Nair, PacifiCorp

**Originator:** Jolynne Flores, Wildfire Safety Analyst  
Jolynne.Flores@energysafety.ca.gov

**Data Request Number:** OEIS-P-WMP\_2025-PC-14

### **Subject(s):**

- Q01. Regarding Critical Assets
- Q02. Regarding “Inspection Projects” and “Assessments”
- Q03. Regarding the Definition of a “Work Unit”
- Q04. Regarding Work Unit Tracking
- Q05. Regarding “MapObject IDs” and “Work Job” Identification Numbers

## INSTRUCTIONS

1. Provide all information in your possession, custody, or control, or the possession, custody, and/or control of your affiliates or agents, that is responsive to these data requests by the due date identified above.
2. Responses and documents may be produced and served electronically, but they must be fully machine-readable and searchable.
3. If you have any questions about the meaning or scope of the data requests herein, direct such questions to the Energy Safety staff identified as the “Originator” of this request at your earliest opportunity.
  - a. Lack of clarity on meaning or scope of requests without prior request for clarification to the “Originator” will not be a permissible reason for incomplete responses and will be regarded as non-compliance with the request.
4. Identify the personnel (e.g., employees, consultants, agents, etc.) who provided information responsive to each of the data requests below. As used in this context herein, “identify” means to provide the full name, email, business address, and title of each employee, consultant, or agent who provided such information.
5. If you do not know the exact answer to any of the requests below, please so indicate and provide your best estimate.
6. Provide data in its original format (e.g., Excel, GIS shapefile, etc.), unless otherwise specified in the request.
7. Submit your response to the 2026-2028 WMP Data Requests docket (#2026-2028-Base-WMP-DRs) by close of business on the response due date.
  - a. Submit confidential information through the confidential e-filing process. Do not submit confidential responses through email.
  - b. If you try to submit a file that is not permissible in the docket, please reach out to your Energy Safety “Originator”.
8. Email the non-confidential portion of the response to Jolynne Flores, Wildfire Safety Analyst [Jolynne.Flores@energysafety.ca.gov](mailto:Jolynne.Flores@energysafety.ca.gov), copying:
  - a. Dakota Smith ([Dakota.Smith@energysafety.ca.gov](mailto:Dakota.Smith@energysafety.ca.gov))
  - b. Steve Kerr ([Steve.Kerr@energysafety.ca.gov](mailto:Steve.Kerr@energysafety.ca.gov))
  - c. Johan Im ([Johan.Im@energysafety.ca.gov](mailto:Johan.Im@energysafety.ca.gov))
  - d. Surya Keshav ([Surya.Keshav@energysafety.ca.gov](mailto:Surya.Keshav@energysafety.ca.gov))
  - e. Eli Weissman ([eli.weissman@energysafety.ca.gov](mailto:eli.weissman@energysafety.ca.gov))
  - f. Colin Lang ([Colin.Lang@energysafety.ca.gov](mailto:Colin.Lang@energysafety.ca.gov))

## REQUEST

### Q01. Regarding Critical Assets

On pages 457-458 of PacifiCorp's 2026-2028 Base WMP R1,<sup>1</sup> PacifiCorp states several times that its enterprise systems capture "critical" assets: "SAP, Maximo, GIS, and a mainframe ... enable the company to track all assets deemed critical" and "PacifiCorp strives to have all critical line assets identified in the mainframe." On page 457, PacifiCorp states that the types of critical assets "[include] but [are] not limited to distribution poles, transmission structures, pad-mounted and underground equipment, substation power transformers, circuit breakers, reclosers, and relays."

- a. List the types of assets PacifiCorp deems critical.
- b. List the types of assets PacifiCorp deems non-critical.
  - i. List which non-critical asset types are recorded within:
    1. SAP
    2. Maximo
    3. GIS
    4. "...a mainframe."
  - ii. For each non-critical asset type list in response to (b)(i), list the percentage of the total of that asset type that is recorded within:
    1. SAP
    2. Maximo
    3. GIS
    4. "...a mainframe."
  - iii. If PacifiCorp is unable to provide exact percentages in response to (b)(ii), approximate the percentages.

### Q02. Regarding "Inspection Projects" and "Assessments"

On page 333 of its 2026-2028 Base WMP R1, PacifiCorp states that "inspection projects" receive a work order number and that "the original assessment" also has a work order number.

- a. Are "inspection projects" and "assessments" identical?
  - i. If yes, define "inspection projects" (e.g., vegetation management inspection of a specific circuit, circuit protection zone, etc.).
  - ii. If no, define and differentiate:
    1. "Inspection projects"
    2. "Assessments"

---

<sup>1</sup> PacifiCorp, [2026-2028 Base Wildfire Mitigation Plan R1](https://efiling.energysafety.ca.gov/eFiling/Getfile.aspx?fileid=59778&shareable=true), Published November 26, 2025, URL:(<https://efiling.energysafety.ca.gov/eFiling/Getfile.aspx?fileid=59778&shareable=true>).

**Q03. Regarding the Definition of a “Work Unit”**

On page 333 of its 2026-2028 Base WMP R1, PacifiCorp states that after updating its Mobile Data Management System (MDMS) it “will have the ability to assign priorities to work units that are within assessments/work jobs, where applicable.” On pages 333-334 of its 2026-2028 WMP, PacifiCorp defines Priority 1, 2, and 3 conditions and remediation timelines for an “observed tree or vegetation, or part thereof.” It is unclear whether a “tree or vegetation, or part thereof” is the same as a unique “work unit.”

- a. Define “work unit” (e.g., a unique tree or other plant, a grouping of trees or other plants, etc.).
- b. Does a “work unit” differ from a “work location?”
  - i. If yes, describe how a “work unit” differs from a “work location.”
  - ii. If yes, define “work location.”

**Q04. Regarding Work Unit Tracking**

On page 333 of its 2026-2028 Base WMP R1, PacifiCorp states that it tracks “work jobs” and that a “work job” is a grouping of “work units.” PacifiCorp labels each “work job” with a unique number that is comprised of the “inspection project” work order number and a “work job” specific extension number.

- a. Does PacifiCorp also add to the work order number a unique identifier for each “work unit?”
  - i. If yes, provide a complete example of the unique identification number for a “work unit” and describe each component of the identification number (e.g., the number may include identifiers specific to the work order, work job, work unit, etc.).
  - ii. If no, describe how PacifiCorp will track completion of each “work unit” based on priority and determine when individual “work units” become past due.

**Q05. Regarding “MapObject IDs” and “Work Job” Identification Numbers**

On page 332 of its 2026-2028 Base WMP R1, PacifiCorp states that it provides its vegetation management contractor a single work release for “the entire power line being worked” to “correct vegetation conditions.”<sup>2</sup> PacifiCorp also states that its contractor uses “a unique identifier, a “MapObject ID” to identify work locations where it has completed vegetation

---

<sup>2</sup> PacifiCorp, Response to Data Request [OEIS-P-WMP\\_2025-PC-01 Question 2](https://efiling.energysafety.ca.gov/eFiling/Getfile.aspx?fileid=58952&shareable=true), Published July 18, 2025, URL:(<https://efiling.energysafety.ca.gov/eFiling/Getfile.aspx?fileid=58952&shareable=true>).

Note that in its response to data request 1, question 2 PacifiCorp defined “entire power line” as a distribution circuit or a transmission line segment.

management work. On page 333 of its 2026-2028 Base WMP R1, PacifiCorp describes a “work job” identification number that consists of the work order number and an extension number.

- a. Is the “MapObject ID” the same as the unique identification number for each “work job?”
  - i. If yes, explain how PacifiCorp’s MDMS software updates (ES-05 and ES-07), as it described in Table 12-1: “Enterprise System Targets” on page 455 of its 2026-2028 Base WMP R1, will allow PacifiCorp to track completion of work at the tree or individual plant level.
  - ii. If no, explain how the unique identification number PacifiCorp describes on page 333 of its 2026-2028 Base WMP R1 will allow it to track completion of work at the tree or individual plant level.

**END OF REQUEST**
