Q01. Regarding Projected Expenditures for Emergency Preparedness Plan

- a. In its 2025 WMP Update, PacifiCorp reported an increase in its 2025 projected expenditures for its emergency preparedness plan (EP-01) from \$50,000 to \$320,000 (an increase of 540 percent) and stated that this increase is due to including the entire emergency management team where only a partial employee was previously forecasted.¹ In response to a data request, PacifiCorp listed nine emergency management employees that fall under its forecasted emergency preparedness plan projected expenditures.² Provide further details on what PacifiCorp's EP-01 increased projected expenditures are for.
 - i. If for employees, explain whether the projected increase is due to re-forecasting expenditures for existing employees or due to hiring new employees as part of PacifiCorp's emergency management team.
 1. If due to re-forecasting for existing employees, list how many and which employees are included in PacifiCorp's 2025 projected expenditures that were not included as "previously forecasted."³
 2. If the employees listed in Data Request OEIS-P-WMP_2024-PC-08, Question 2 are due to hiring new employees, list how many and which employees are new since the previously forecasted "partial employee."
 - ii. If for training, list and explain the emergency management training(s) be taken with the increased projected expenditures.
 - iii. If for a different reason(s), list and describe the reason(s) for the increased projected expenditures.
 - iv. What percentage of each of the reasons listed above (described in questions i-iii) account for the \$270,000 projected expenditure increase (i.e., how much of the projected expenditure increase is due to employees, training, etc.).
