

Attachment OEIS 1.5

Initiative Tracking ID	Initiative/Program	Page Reference as Applicable
CO-02	Engagement with access and functional needs populations	Pages 329-332
CO-03	Collaboration on local wildfire mitigation planning	Pages 332-333
CO-04	Best practice sharing with other utilities	Pages 334-335
EC-01	Environmental compliance and permitting	Pages 63-66
EP-04	Preparedness and planning for service restoration	Pages 310-314
GH-06	Other grid topology improvements to minimize risk of ignitions	Not done at this time. Page 162
GH-07	Other grid topology improvements to mitigate or reduce PSPS events	Not done at this time. Page 162
GH-08	Other technologies and systems not listed above	Not done at this time.
GH-09	Undergrounding of electric lines and/or equipment	Page 158
GH-10	Traditional overhead hardening	Not done at this time. Page 161
GH-11	Emerging grid hardening technology installations and pilots	Not done at this time. Page 161
GH-12	Microgrids	Page 161
GH-13	Line removals (in HFTD)	Page 158
GH-14	Workforce Planning	Pages 202-203
AI-09	LiDAR inspections of distribution electric lines and equipment	Not done at this time.
AI-10	LiDAR inspections of transmission electric lines and equipment	Not done at this time.
MA-02	Maintenance: Equipment inspections, maintenance, and repair: Circuit breakers	Pages 175-176
MA-03	Maintenance: Equipment inspections, maintenance, and repair: Crossarm	Pages 175-176
VM-09	Remote sensing inspections of vegetation around distribution electric lines and equipment	Not done at this time.
VM-10	Remote sensing inspections of vegetation around transmission electric lines and equipment	Not done at this time.
