

CalAdvocates Data Request 3.4

The following questions relate to your 2023-2025 WMP submission and to work that was completed pursuant to previous years' WMPs.

If a full response to a given question will be included in your 2023-2025 WMP submission, your response to that question of this data request may consist of a citation to the specific page(s) or table(s) of the 2023-2025 WMP where the information may be found, a written response to the question, or both.

Please note that, for this data request, the geographical regions are mutually exclusive (i.e., "Other HFTD" excludes areas that are in either Tier 2 or Tier 3). Therefore, for any given circuit, the following relationships should hold:

- Tier 2 miles + Tier 3 miles + Other HFTD miles = total HFTD miles.
- Tier 2 miles + Tier 3 miles + Other HFTD miles + non-HFTD miles = total circuit miles.

Provide an Excel table of all transmission circuits existing as of January 1, 2022 (as rows) that were removed or decommissioned in 2022, either partially or entirely. This includes permanent removal, removal of overhead lines that were moved underground, or overhead lines that were decommissioned but not physically removed. Include the following information in separate columns.

- (a) Circuit name
- (b) Circuit ID number
- (c) Circuit miles removed or decommissioned in Non-HFTD Areas
- (d) Circuit miles removed or decommissioned in Other HFTD
- (e) Circuit miles removed or decommissioned in HFTD Tier 2
- (f) Circuit miles removed or decommissioned in HFTD Tier 3
- (g) Reason(s) for removal or decommissioning

Response to CalAdvocates Data Request 3.4

There were no removals, decommissioning or undergrounding of transmission circuits.
