

CalAdvocates Data Request 6.7

The following questions relate to your 2023-2025 WMP submission.

If a full response to a given question will be included in your WMP submission, your response to that question of this data request may consist of a citation to the specific page(s) or table(s) of the WMP where the information may be found, a written response to the question, or both.

System Hardening

Provide your workplan that describes where and when you will perform system hardening on distribution circuits in 2024. For projects that you expect to partially complete in 2024 (i.e., projects that are expected to start before 2024 and are expected to continue in 2024, or projects that are expected to be completed after 2024), please include the project and report the work that you forecast will actually be performed in calendar year 2024.

For each project, include the following information in separate columns, at a minimum:

- (a) Order number
- (b) Program
- (c) Circuit ID number
- (d) Circuit-segment name or ID number (if the project affects more than one circuit-segment, please identify each one)
- (e) Relevant wildfire risk score(s) from the wildfire risk model that you are using to estimate distribution risk in your 2023-2025 WMP filing
- (f) The expected or actual start date of the project
- (g) The expected completion date of the project
- (h) Length (in circuit miles) of covered conductor to be installed in 2024
- (i) Length (in circuit miles) of underground conductor to be installed in 2024
- (j) Length (in circuit miles) of overhead conductor to be permanently removed in 2024 and replaced by underground conductor (note that this may differ slightly from the previous part due to differing overhead and underground routes)
- (k) Length (in circuit miles) of overhead conductor to be permanently removed in 2024 and not replaced with covered conductor or underground conductor)
- (l) Length (in circuit miles) of any other type of system hardening project to be installed in 2024 (if this is greater than zero, please describe the type of system hardening project).

CalAdvocates Data Request 6.7

Response to CalAdvocates Data Request 6.7

The Company assumes that the reference in subpart (j) to “the previous part” is intended to be reference to subpart (i). Based on the foregoing assumption, the Company responds as follows:

Please refer to Attachment CalAdvocates 6.7.

Despite PacifiCorp's diligent efforts, certain information protected from disclosure by the attorney-client privilege or other applicable privileges, or law may have been included in its responses to these data requests. PacifiCorp did not intend to waive any applicable privileges or rights by the inadvertent disclosure of protected information, and PacifiCorp reserves its right to request the return or destruction of any privileged or protected materials that may have been inadvertently disclosed. Please inform PacifiCorp immediately if you become aware of any inadvertently disclosed information.

Order Number	Program	Circuit ID Number	Circuit segment name	Relevant wildfire risk score	Expected or actual start date	expected completion date	Length (in circuit miles) of covered conductor to be installed in 2024
